| <b>LUNG MANUSCRIPTS PUBLISHED/ACCEPTED (2017)</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                       |                    |
| S0635/36                                          | Paired Phase II Studies of Erlotinib/Bevacizumab in Advanced Bronchioloalveolar Carcinoma or in Never-Smokers with Advanced Non-Small-Cell Lung Cancer (NSCLC): SWOG S0635 and S0636 Trials. HL West, J Moon, AJ Wozniak, P Mack, FR Hirsch, MJ Bury, M Kwong, DD Nguyen, DF Moore, J Miao, M Redman, K Kelly, DR Gandara. <u>Clinical Lung Cancer</u> , Jul 6 [Epub ahead of print], 2017. PMID28801183<br><a href="https://www.ncbi.nlm.nih.gov/pubmed/28801183">https://www.ncbi.nlm.nih.gov/pubmed/28801183</a>                                                                                                                                                         | 7/15/07<br>7/15/07    | 8/15/11<br>9/1/10  |
| S0819                                             | A randomized, phase iii study of carboplatin/paclitaxel or carboplatin/paclitaxel/ bevacizumab with or without concurrent cetuximab investigating EGFR FISH in patients with advanced non-small cell lung cancer: SWOG S0819. R Herbst, M Redman, E Kim, T Semrad, L Bazhenova, G Masters, K Oettel, P Guaglianone, C Reynolds, A Karnad, S Arnold, M Varella-Garcia, J Moon, P Mack, C Blanke, F Hirsch, K Kelly, DR Gandara. <u>Lancet Oncology</u> , accepted.                                                                                                                                                                                                           | 7/15/09               | 5/1/15             |
| S0905                                             | Phase I Trial of Cediranib in combination with cisplatin and pemetrexed in chemonaive patients with unresectable malignant pleural mesothelioma (SWOG S0905). A Tsao, J Moon, II Wistuba, NJ Vogelzang, GP Kalemkerian, MW Redman, DR Gandara, K Kelly. <u>Journal of Thoracic Oncology</u> Aug;12(8):1299-1308, 2017. 2017 Jun 6 [Epub ahead of print]. PMID28599887<br><a href="https://www.ncbi.nlm.nih.gov/pubmed/28599887">https://www.ncbi.nlm.nih.gov/pubmed/28599887</a>                                                                                                                                                                                            | 3/15/10               | 2/15/16            |
| Multiple*/Other                                   | A pooled analysis of individual patient data of concurrent chemoradiotherapy for stage 3 non-small-cell lung cancer in elderly patients compared to younger patients who participated in United States National Cancer Institute Cooperative Group studies. TE Stinchcombe, Y Zhang, EE Vokes, J Schiller, JD Bradley, K Kelly, W Curran, SE Schild, B Movsas, G Clamon, R Govindan, GR Blumenschein, MA Socinski, NE Ready, WL Akerley, HJ Cohen, H Pang, X Wang. <u>Journal of Clinical Oncology</u> , 2017 May 11 Epub ahead of print] [*S0023]. PMID28493811<br><a href="https://www.ncbi.nlm.nih.gov/pubmed/28493811">https://www.ncbi.nlm.nih.gov/pubmed/28493811</a> |                       |                    |
| <b>LUNG MANUSCRIPTS SUBMITTED (2017)</b>          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                       |                    |
| S0424                                             | Smoking, sex and non-small cell lung cancer: examination of steroid hormone receptors in lung tumor tissue in SWOG S0424. T-Y D Cheng, AK Darke, MW Redman, GR Zirpoli, W Davis, R Payne Ondracek, W Bshara, A Omilian, R Kratzke, ME Reid, JR Molina, JM Kolesar, Y Chen, RM MacRae, J Moon, P Mack, DR Gandara, K Kelly, RM Santella, KS Albain, CB Ambrosone. <u>Journal of the National Cancer Institute</u> , under review                                                                                                                                                                                                                                             | 10/1/05               | 3/15/11            |

# LUNG ABSTRACTS PUBLISHED/PRESENTED/ACCEPTED (2017)

|        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |         |          |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|----------|
| S0424  | <p>Steroid hormone receptor protein expression by gender and smoking in non-small cell lung cancer: SWOG S0424. T-Y D Cheng, AK Darke, MW Redman, GR Zirpoli, W Davis, R Payne Ondracek, W Bshara, R Kratzke, JR Molina, JM Kolesar, Y Chen, RM MacRae, J Moon, P Mack, DR Gandara, K Kelly, RM Santella, KS Albain, CB Ambrosone. USCAP 2017 (March 4-10, 2017, San Antonio, TX), poster. <u>Modern Pathology</u>, Volume 30, Issue S2 (February 2017), p. 474A, abst. 1907. <a href="https://www.nature.com/modpathol/journal/v30/n2s/pdf/modpathol2016262a.pdf">https://www.nature.com/modpathol/journal/v30/n2s/pdf/modpathol2016262a.pdf</a></p>                                                                         | 10/1/05 | 3/15/11  |
| S1400  | <p>Progress in lung squamous cell carcinoma from the Lung-MAP master protocol (S1400) sub-studies S1400A, S1400B, S1400C and S1400D. RS Herbst, MW Redman, DR Gandara, FR Hirsch, PC Mack, H Borghaei, CJ Langer, JL Wade, JA Engelman, MJ Edelman, K Albain, Primo Lara Jr., C Aggarwal, MA Socinski, SN Gettinger, LA Bazhenova, SN Waqar, F Robert, GJ Kiefer, JD Bradley, J Crawford, E McGary, NM Rafique, D Petro, P Hoffman, Y Zhou, J Miao, K Griffin, S McDonough, C Miwa, S Malik, VA Miller, EV Sigal, S Adam, CD Blanke, K Kelly, VA Papadimitrakopoulou. IASLC World Conference on Lung Cancer (October 15 - 18 2017, Yokohama, Japan), accepted, oral presentation.</p>                                         |         |          |
| S1400A | <p>A phase II study of Durvalumab (MEDI4736) for previously treated patients with stage IV squamous NSCLC (SqNSCLC): Lung-MAP Sub-study SWOG S1400A. V Papadimitrakopoulou, MW Redman, H Borghaei, SN Waqar, F Robert, GJ Kiefer, S McDonough, RS Herbst, K Kelly, DR Gandara. European Lung Cancer Conference (May 5-7, 2017, Geneva, Switzerland), oral presentation. <u>Annals of Oncology</u> 28 (suppl_2): mdx091.003, 2017. <a href="https://academic.oup.com/annonc/article/28/suppl_2/mdx091.003/3799664/83O-A-phase-II-study-of-durvalumab-MEDI4736-for?searchresult=1">https://academic.oup.com/annonc/article/28/suppl_2/mdx091.003/3799664/83O-A-phase-II-study-of-durvalumab-MEDI4736-for?searchresult=1</a></p> | 6/15/14 | 11/18/15 |
| S1400B | <p>A phase II study of gdc-0032 (taselisib) for previously treated pi3k positive patients with stage iv squamous cell lung cancer (sqNSCLC): lung-map sub-study SWOG S1400B. JL Wade, III, MW Redman, CJ Langer, C Aggarwal, JD Bradley, J Crawford, J Miao, K Griffin, R Herbst, K Kelly, DR Gandara, VA Papadimitrakopoulou. American Society of Clinical Oncology Annual Meeting (June 2-6, 2017, Chicago, IL), poster; <u>J Clin Oncol</u> 35, 2017 (suppl; abstr 9054). <a href="http://abstracts.asco.org/199/AbstView_199_188460.html">http://abstracts.asco.org/199/AbstView_199_188460.html</a></p>                                                                                                                  | 6/15/14 | 12/12/16 |
| S1400C | <p>A phase II study of palbociclib (p) for previously treated cell cycle gene alteration positive patients (pts) with stage IV squamous cell lung cancer (scc): lung-map sub-study SWOG S1400C. MJ Edelman, MW Redman, KS Albain, E McGary, NM Rafique, D Petro, SN Waqar, K Griffin, J Miao, VA Papadimitrakopoulou, K Kelly, DR Gandara, R Herbst. American Society of Clinical Oncology Annual Meeting (June 2-6, 2017, Chicago, IL), poster. <u>J Clin Oncol</u> 35, 2017 (suppl; abstr 9056). <a href="http://abstracts.asco.org/199/AbstView_199_186002.html">http://abstracts.asco.org/199/AbstView_199_186002.html</a></p>                                                                                            | 6/15/14 | 9/1/16   |

|        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |         |          |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|----------|
| S1400D | Phase II study of the EGFR inhibitor azd4547 in previously treated patients with FGF pathway-activated stage IV squamous cell lung cancer (sqNSCLC): lung-map sub-study SWOG S1400D. C Aggarwal, MW Redman, P Lara, Jr., H Borghaei, P Hoffman, JD Bradley, K Griffin, J Miao, PC Mack, VA Papadimitrakopoulou, R Herbst, K Kelly, DR Gandara. American Society of Clinical Oncology Annual Meeting (June 2-6, 2017, Chicago, IL), poster. J Clin Oncol 35, 2017 (suppl; abstr 9055). <a href="http://abstracts.asco.org/199/AbstView_199_191100.html">http://abstracts.asco.org/199/AbstView_199_191100.html</a> | 6/15/14 | 10/31/16 |
| S1403  | Longitudinal analysis of plasma ctDNA in EGFR-mutant NSCLC: SWOG S1403 trial of afatinib with or without cetuximab. PC Mack, J Miao, KC Banks, RA Burich, K Politi, VM Raymond, D Dix, RB Lanman, J Moon, M Redman, SB Goldberg, DR Gandara, KA Kelly. IASLC World Conference on Lung Cancer (October 15 - 18 2017, Yokohama, Japan), accepted, poster presentation.                                                                                                                                                                                                                                              | 3/25/15 |          |

| S0124 | Impact of platinum-sensitivity status on post-progression survival (PPS) of patients with extensive stage small cell lung cancer (ES-SCLC): results from SWOG 0124, a phase III trial of irinotecan/cisplatin(IP) vs. etoposide/cisplatin(EP). PN Lara, Jr., J Miao, J Moon, MR Redman, DR Gandara, KR Kelly. World Conference on Lung Cancer (Dec 4-7, 2016, Vienna, Austria), oral presentation.<br><a href="http://library.iaslc.org/virtual-library-search?product_id=6&amp;author=lara&amp;category=">http://library.iaslc.org/virtual-library-search?product_id=6&amp;author=lara&amp;category=</a>                                                                                                                                                        | 11/1/02 | 3/1/07 |
| S0819 | Role of KRAS mutation status in NSCLC patients treated on S0819, a phase II trial of chemotherapy with or without cetuximab. PC Mack, J Moon, RS Herbst, ES Kim, TJ Semrad, MW Redman, RA Tsai, LJ Solis, JP Gregg, SL Hatcher, M Varella-Garcia, FR Hirsch, C Blanke, K Kelly, DR Gandara. World Conference on Lung Cancer (Dec 4-7, 2016, Vienna, Austria), poster.<br><a href="http://library.iaslc.org/virtual-library-search?product_id=6&amp;author=gandara&amp;category=">http://library.iaslc.org/virtual-library-search?product_id=6&amp;author=gandara&amp;category=</a>                                                                                                                                                                               | 7/15/09 | 5/1/15 |
| S0819 | Outcomes for patients treated with or without bevacizumab on SWOG S0819: a randomized, phase III study comparing carboplatin/paclitaxel or carboplatin/paclitaxel/bevacizumab with or without concurrent cetuximab in patients with advanced non-small cell lung cancer (NSCLC). TJ Semrad, MW Redman, R Herbst, ES Kim, L Bazhenova, G Masters, K Oettel, P Guaglianone, C Reynolds, A Karnad, SM Arnold, M Varella-Garcia, J Moon, P Mack, C Blanke, F Hirsch, K Kelly, D Gandara. American Society of Clinical Oncology Annual Meeting (June 3-7, 2016, Chicago, IL), poster session. J Clin Oncol 34, 2016 (suppl; abstr 9082).<br><a href="http://abstract.asco.org/176/AbstView_176_164696.html">http://abstract.asco.org/176/AbstView_176_164696.html</a> | 7/15/09 | 5/1/15 |
| S0819 | Biomarker-enriched efficacy of cetuximab-based therapy: squamous subset analysis from S0819, a phase III trial of chemotherapy with or without cetuximab in advanced NSCLC. FR Hirsch, MW Redman, RS Herbst, ES Kim, TJ Semrad, L Bazhenova, G Masters, K Oettel, P Guaglianone, C Reynolds, A Karnad, SM Arnold, M Varella-Garcia, J Moon, PC Mack, C Blanke, K Kelly, DR Gandara. American Society of Clinical Oncology Annual Meeting (June 3-7, 2016, Chicago, IL), poster session. J Clin Oncol 34, 2016 (suppl; abstr 9090)<br><a href="http://abstract.asco.org/176/AbstView_176_169187.html">http://abstract.asco.org/176/AbstView_176_169187.html</a>                                                                                                   | 7/15/09 | 5/1/15 |
| S1206 | SWOG S1206: A dose-finding study of veliparib (ABT-888) added to chemoradiotherapy (CRT) with carboplatin (C) and paclitaxel (P) for unresectable stage III non-small cell lung cancer (NSCLC). M Cristea, Ji Miao, A Argiris, AM Chen, M Daly, R Decker, L Garland, D Wang, M Koczywas, J Moon, K Kelly, D Gandara. American Society of Clinical Oncology Annual Meeting (June 3-7, 2016, Chicago, IL), poster session.
