

## Available Prior NGS Test Results AND Screening at Progression\*

*\*Pre-screening is not an option if using a prior test*

Pathway 3: Test NOT on pre-approved list AND test does not show presence of a sub-study biomarker

Step 1: Check that the test evaluates for the presence of all alterations listed on the Genomic Alterations Form

If no, test not acceptable

Must submit tissue to be eligible

If tissue-based NGS test

If blood-based NGS test

Presence of at least one of the alterations listed on the Genomic Alterations Form

If no, test not acceptable

Must submit tissue to be eligible

If yes

Step 2: Submit report to [LUNGMAPNGS@swog.org](mailto:LUNGMAPNGS@swog.org) for evaluation of eligibility to a non-matched sub-study (S1800 series)

If test not acceptable

Must submit tissue to be eligible

If acceptable

Step 3: Submit Genomic Alterations Form
