

## SWOG Specimen Tracking System

**Christine Magner**  
Data Coordinator Supervisor  
Cancer Research And Biostatistics (CRAB)  
SWOG Statistics and Data Management Center (SDMC)

SWOG Group Meeting  
Spring 2026

1

## Specimen Tracking System: Overview

- ✓ Also referred to as **SpecTrack**
- 👤 Online application used by enrolling institutions as well as the receiving labs and repositories
- 📄 Facilitates resolution of specimen expectations
- 📍 Allows visibility of specimen locations and assay results

2

## Specimen Tracking System: History

- First version released in November 2003
- S0221 was the first study to use SpecTrack
- Used for all SWOG studies today
- Accessed from the SWOG CRA Workbench

3

## Updates and Improvements

- Study-specific filters for specimen type, collection timepoints, etc.
- Pre-populated lab information, including shipping address
- Specimen manager filters
- Assay results
- Your feedback matters!

4

## Does My Study Use SpecTrack?

- If your study requires specimen submission, it indeed uses the Specimen Tracking System
- Read Protocol Section 15.0 (Special Instructions)
- Read the Informed Consent Form
- In rare cases, see Section 12.0 (Discipline Review)

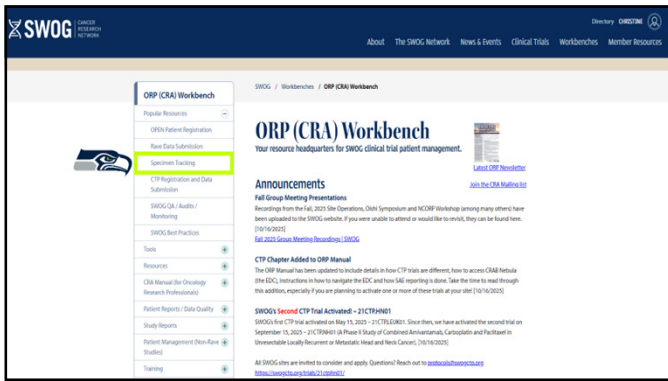

5

## SpecTrack User Resources

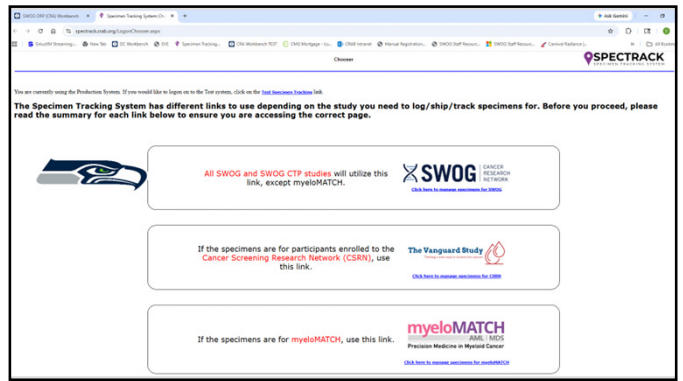

- Always refer to your SWOG Protocol for specimen-specific information
- SpecTrack written instructions and training module
  - access SpecTrack via the CRA workbench at <https://www.swog.org/member-resources>
- Your SWOG Data Coordinators
