

Specimen Tracking System

Presented by
Christine McLeod
Clinical Research Data Coordinator
SWOG SDMC

Specimen Tracking System (SpecTrack - or - STS)

History of STS

- First released in November 2003
- S0221 was the first study to use STS
- All current SWOG studies use STS

STS Versions/Improvements

We've come a long way, baby!

- Study specific specimen options
- Pre-populated lab information
- Specimen Manager
- Assay results

Your input does matter

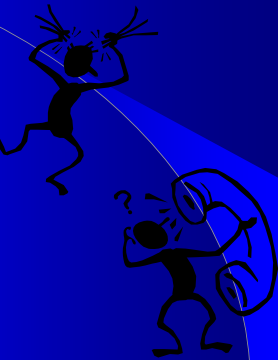

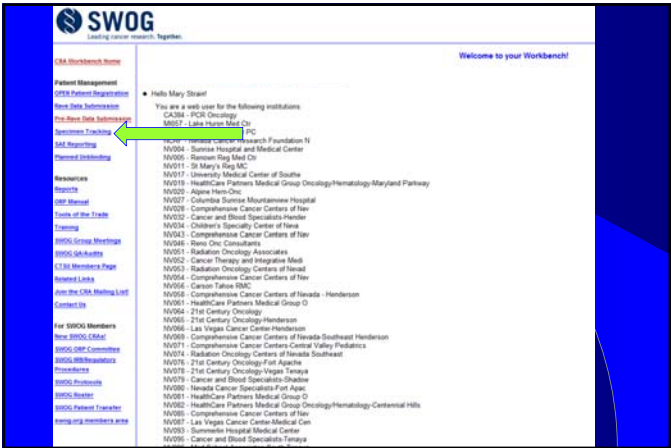

The consent form
and
Section 15.0
(Special Instructions)

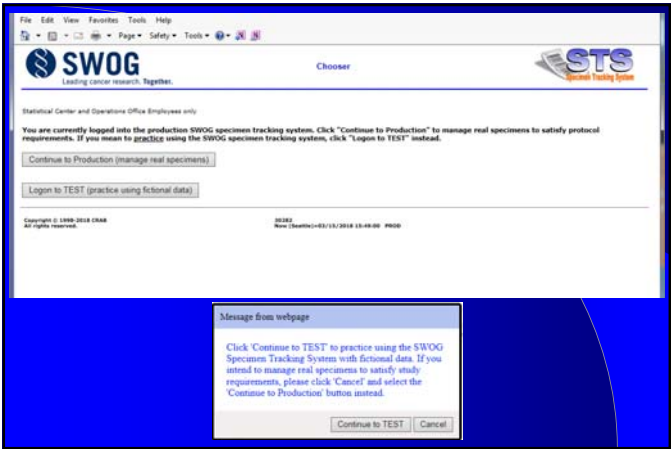

and possibly
Section 12.0
(Discipline Review)

Sources of Information & Assistance

Step 1: Verify Shipment Contents

Shipment 291955 Contents:

Patient	Study	Specimen Number	Specimen	Quantity	Timepoint/Contact	Collection Date
270242	S1609	2320480	Tissue from primary site - Blocks	1	Baseline, Prior to tx start	3/20/2018

Add or modify shipment contents

Step 2: Verify Lab and Address

Ship To:
Address:
201 - SWOG Specimen Repository
Standard
Solid Tissue, Myeloma & Lymphoma Div
Nationwide Children's Hospital
700 Children's Dr. W41340
Columbus, OH 43205

Shipment Tracking Number:
(e.g. Federal Express tracking number)

Name of Shipper:
Christine McLeod

Shipper Phone Number:
(206) 652-2267 Ext.

Instructions:

Step 3: Enter the Shipment Date

Once you ship, you may not modify or delete the shipment or any of its contents. It is REQUIRED to put a copy of the Packing List in the shipment

Shipment Date: 03 / 21 / 2018

Generate Shipment Label (optional)
