

# Geriatric Oncology Symposium

## Enhancing Clinical Trials for Older Adults with Cancer: Integrating Geriatric Principles into Design and Implementation

**THURSDAY, MAY 1ST • 12:45 – 1:45 PM PT • SEACLIFF AB (BAY LEVEL)**

Older adults represent most patients with cancer, yet they remain significantly underrepresented in clinical trials. Designing practical, inclusive, and evidence-driven trials for this population is critical to improving care.

This symposium will provide attendees with actionable strategies for successfully incorporating older adults into cancer research. Experts in geriatric oncology will offer practical guidance on geriatric assessment measures, study design innovations, and overcoming enrollment barriers.

The session will conclude with **key takeaways and an interactive Q&A** to help attendees implement **age-inclusive trial strategies** in their own research.

*Join us to advance the future of clinical trials for older adults!*

Incorporating geriatric measures into clinical trials: which and how?

*Enrique Soto Pérez de Celis, MD, PhD*

### **PANEL:** Designing meaningful clinical trials for older adults: insights from cooperative groups

**MODERATOR:**

*Virginia Sun,  
PhD, MSN, RN*

*Efrat Dotan,  
MD*

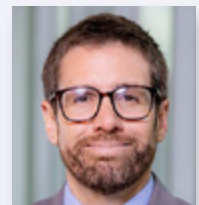

*David B. Zhen,  
MD*

*Mina S. Sedrak,  
MD, MS*

*Jyotsana  
Parajuli, PhD,  
MGS, RN*

*Enrique Soto  
Pérez de Celis,  
MD, PhD*
