

S2417CD Information Session

S2417CD: A Pragmatic Randomized Controlled Trial to Evaluate the Effectiveness of an Intervention Called *Current Together After Cancer (CTAC)* to Promote Guideline-Concordant Colorectal Cancer Surveillance

FRIDAY, MAY 2 • 12:30 – 1:30 PM PT • SEACLIFF AB (BAY LEVEL) / HYBRID

All NCORP and MU NCORP sites are invited to learn about this new cancer care delivery trial aimed at improving follow-up care for colorectal cancer survivors. Your input will help us successfully implement this trial across different NCORP sites.
This trial is under development and plans to activate in summer 2025.

THIS SESSION WILL DISCUSS:

Trial objectives and design

The intervention

Patient screening and recruitment

Patient-reported outcomes (PROs)

Logistics for site participation

RESEARCH TEAM

Christine Veenstra, M.D.
Study Chair
University of Michigan
Rogel Comprehensive Cancer Center

Sarah Hawley, Ph.D.
Study Chair
University of Michigan
Rogel Comprehensive Cancer Center

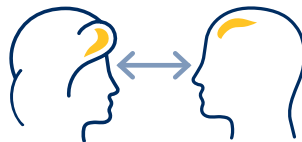

GOAL 1

Improve survivor's knowledge about surveillance and self-efficacy for navigating surveillance

GOAL 2

Elicit survivors' preference for supporter engagement in surveillance

GOAL 3

Promote effective supporter engagement in surveillance

All NCORP-based staff and investigators are invited
